Thanks to Davide for these lyrics.

I am a soldier
A casualty of love
I've been from heaven
All the way to hell
I've had a journey
Much more than I can tell
I've got stories
Much more than I can sell

All this mass confusion
Causes chaos in my brain
I'm on the battlefield
The battlefield of love
With all of the illusions
I won't ever be the same
I'm on the battlefield
The battlefield of love

I'm a prisoner
A prisoner of love
I have been captured
And kept underground
I have been tortured
But I don't make a sound
'Cause I know one day
One day I will be found

All this mass confusion
Causes chaos in my brain
I'm on the battlefield
The battlefield of love
With all of the illusions
I won't ever be the same
I'm on the battlefield
The battlefield of love
