We drink from the same glass
We share the same past
A long time ago
You told me that I should know
It's hard no matter what you do
My guard was always up for you
The job is never done
A kiss just for fun
Our flood waters are gone
Our blood brothers are strong
It's hard no matter what you do
My guard was always up for you
I'll slip you underneath
Between the grip of your teeth
It's hard no matter what you do
My guard was always up for you
