Look out across the fields, and see me returning  
The smoke is in your eyes, a new grown smile  
From the fireplace, where my letters to you are burning  
You had time to think about it, for a while.  
Well i walked 200 hundred miles, look me over  
Its the end of the chase, and the mood is high  
It wont matter who loves who  
You love me, and i love you  
Yeah yeah yeah yeah

(chorus)

When the night comes falling  
When the night comes falling  
When the night comes falling from the sky

Well i can see through your walls  
I can tell that your hurting  
The sorrow covers you up like a cage  
Only yesterday, i know that you were flirting  
But disaster, somehow managed, to escape  
Well i cant go back to you  
No is the answer  
Who are you, that i should have to lie  
You were all that mattered love  
It will fit you like a glove  
Hey yeah yeah yeah

(chorus)

For all eternity, i think i will remember  
That icy wind, thats howling in her eyes  
You will see me in your time  
In the wasteland of your mind  
Hey yeah yeah yeah yeah

(chorus) x 2
