I got my coffee and I got my coat
I turn the keys and I hit the road
It looks like rain and it's freezin' cold
Feels like headin' for the twilight zone
So keep on drivin'
Like I want to reach the moon
Keep on drivin'
In my tin cocoon
I hope I'll be home soon
I called you up just to hear your voice
Your lovin' words filled my heart with joy
I miss your touch and I miss the boys
Wish I was home but I got no choice
Gotta keep on drivin'
Like I want to reach the moon
Keep on drivin'
In my tin cocoon
I hope I'll be home soon
There's a flash and i'm in a spin
I heard a crash don't recall a thing
I see a face with a perfect skin
Saying I checked out, now I'm checkin' in
But I keep on drivin'
Like I want to reach the moon
Keep on drivin'
In my tin cocoon
I hope I'll be home soon
Into the void I glide
An angel by my side
Keep on drivin' (4x)
Someone cryin' at my tomb
Someone howlin' at the moon
Keep on drivin' in my tin cocoon
Keep on drivin' gonna be home soon
Keep on drivin' (4x)
