I took a trip in my mind I turned water into wine in the  
sunshine  
I took a trip far away from the troubles of this maniac  
day  
Oh I breathed in the air and I swear I didn't care about  
tomorrow  
It was good it was better than good it's where I wanted  
to stay

And if you know what I'm saying I'm saying I just don't  
know a damn thing  
And I think that one day that that's what I will truly  
believe  
Till then I go alone like I do everyday in my own special  
way  
Taking this life that I lead way to seriously
