How will I know my love
How will I know my darlin'
Whippoorwill give me a sing
How will I know he's mine
How will I know my love
When he walks through the pinewoods
Mockingbird tell me for true
Help me find him, do

Will I meet him in the autumn
Will the hills be green with spring
Will he takes my hand in summer
And make me a clover ring

How will I know my love
How will I know my darlin'
Old mister moon up above
How will I know my love
