We got to live together
We got to live together

There's anger and hate gloom and doom
We're fightin brother to brother
Religion and race politics too
Are reasons we're killin each other

Just turn on your tv there's no escape
Won't let up anywhere this violence and hate
No listening just talkin seems like there's no hope
Too many people at the end of their rope

We got to live together
We got to live together

If you're feelin low and you ain't got no friends
The world pushin down on your shoulders
Where ever you go the people you meet
They couldn't be any colder
You have to keep your chin up hold your head high
Then things will start lookin up reach for the sky
Don't let those people trippin mess with your groove
Just keep your mind open let love shine
through yeah-

We got to live together
We got to live together
We got to live together
We got to live together

I still believe that we could come together
Lovin one another- well
So I'll get down on my knees
And pray that we can find a way to live today-

We got to live together
We got to live together
We got to live together
We got to live together
(repeat)
