Staring at the sea
Wondering where I'd be
Without all my friends
Thinking 'bout the story
But the story never ends

It's about having those good times baby

MJ at the wheel
Staring at the mess
he's wondering when the money is
going to come
Come on now MJ, let's just go out and have some fun

Blue eyes, hey blue eyes
You're crazy as a hare
To the top of the mountain baby
I'm going to take you there

It's about having those good times baby
Those good good good times
Good good good times

That's the way you do it
Thet's the way you do it
You got to do it
As you do

Staring at the sea
Wondering where I'd be
Without all my friends
Thinking 'bout the story
But the story never ends

Angel, hey angel
You're crazy as a hare
To the top of the mountain baby
I'm going to take you there

It's about having those good times baby
Those good good good times

Good good good times

That's the way you do it
That's the way you do it (uhhuh)
You gotta do it (Oh yeah?)
As you do

Did I tell you about Ritesh
Big soul in his chest
And he's staring at the sea
Wondering how the hell he ever got
involved with me

Blue eyes, hey blue eyes
You're crazy as a hare
But the top of the mountain baby
I'm going to take you there

It's about having those good times baby
Those good good good times
Good good good times

That's the way you do it
That's the way you do it
You gotta do it
As you do

Come on!
