If my eyes could never see your face again
Return me to the earth
Return me to the earth
If my heart could never feel your love again
Return me to the earth
Return me to the earth

She said I won't leave now
I'll take it underground
I won't leave now
I'll take it underground

If my soul could never meet your soul again
Return me to the earth
Return me to the earth

She said I won't leave now
I'll take it underground
I won't leave now
I'll take it under ground

I'll never let you down again
I'll never let you down again
I'll never let you down again

She said I won't leave now
I'll take it underground
I won't leave you now
I'll take it underground
I won't leave you now, baby
I'll take it underground
I won't leave now
I'll take it underground
