You've got a bad vibration from your morbid
fascination

Try to creep your way through town, but the bridge is
already down

Yeah, you and your cronies, you only prey on the lonely
A world of monochrome rainbows says everything
about you now

Hey, come on, everything you do is wrong

Bad karma follows you around
Bad karma follows you around
Bad karma follows you around
Bad karma, bad karma follows you around

The first time you got your hands on cash, you got a
face like a car crash
After that everything went black and I knew you were
never coming back
You lie, you cheat, you steal, from your own but not
from me
And everything you feel comes from someone else's
heart

Hey, come on, everything you do is wrong

Bad karma follows you around
Bad karma follows you around
Bad karma follows you around
Bad karma, bad karma follows you around

Mercy

You've got a bad vibration
You've got a bad vibration
You've got a bad vibration
You've got a bad vibration

Hey, come on, everything you do is wrong

Bad karma follows you around
Bad karma follows you around

Bad karma follows you around
Bad karma, bad karma, bad karma, bad karma
Bad karma, bad karma, bad karma, bad karma
Follows you around
