Take the knife on up the hill, lover  
And kiss the girl goodbye

Venus is dancing down your dress  
And her eyes, now means to me even less  
And her hair, the knot that he pulled it tight  
It's only the knot that he pulled it tight

Got get him out of your system, leave now, he'll follow,  
leave now, he'll follow  
Get him out of your system, leave now, he'll follow,  
leave now, he'll follow

The one thing I've looked for all my life  
Is killing everything I ever want  
Trust me to give my firstborn up  
I love him, he's all I ever want

Got to get him out of your system, leave now, he'll  
follow, leave now, he'll follow  
Get him out of your system, leave now, he'll follow,  
leave now, he'll follow  
Get him out of your system, leave now, he'll follow,  
leave now, he'll follow  
Got to get him out of your system, leave now, he'll  
follow, leave now, he'll follow

I don't care, take me out of here  
I don't care, take me out of here  
Got to get him out of my system, (I don't care) take me  
out of here  
Got to get him out of my system, (I don't care) take me  
out of here  
Get him out, get him out, (I don't care, take me out of  
here) get him out, just get him out  
Get him out, get him out, (I don't care, take me out of  
here) get him out, just get him out  
No, he can't get him out, no, never get him out  
Get him out, just get him out, no, you'll never get him  
out
