"Dopamine, Serotonin, Adrenaline"

Visit "[Dopamine, Serotonin, Adrenaline](#)" on MotoLyrics.com

God give me strength
God make me well
God take me somewhere
Anywhere but here

One cure fits all

Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline

Fill my mornings with light
And my nights with hope
Make me realise
What I have is more

One cure fits all

Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline

Scientists have discovered a biochemical link between the overwhelming state of love, drug addiction and violence. These emotions are actually controlled by three very powerful drugs: dopamine, serotonin and adrenaline. There is a connection between drug addiction, mental illness and love at first sight.

So scared of dying
Iâ€™ve forgotten how to live

So scared of dying
Iâ€™ve forgotten how to live

So scared of dying
Iâ€™ve forgotten how to live

So scared of dying

Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
Dopamine, serotonin and adrenaline
