I've got a problem
This infernal love
It burns like wire

This infernal love
This infernal love
This infernal love
This infernal love

I've got a problem
I can't leave you alone
I don't want this

This infernal love
This infernal love
This infernal love
This infernal love

I've got a problem
This infernal love
It burns like wire

This infernal love
This infernal love
This infernal love
This infernal love
