I lost my way
But I'm coming back to mess with your head
And I'm feeling all alone
Got to get you, got to let you know

I can never have you so I will always hate you
I can never have you so I'll hate you
I can never have you so I will always hate you
I can never have you so I'll hate you

Are you on my side?
All these drugs have made me paranoid
And I'm feeling insecure
You're the only one that makes it worse

I can never have you so I will always hate you
I can never have you so I'll hate you
I can never have you so I will always hate you
I can never have you so I'll hate you

I can never have you so I will always hate you
I can never have you so I'll hate you
I can never have you so I will always hate you
I can never have you so I'll hate you
Hate you, hate you

Thank you very much
