Yeah

I want to destroy everything I know, I want to start again  
from scratch

I've done so many things that I regret but I don't feel  
guilty and I won't look back

I'm sick and tired of going nowhere

Yeah

I need a new source of raw power

My feet are my limousine and they take me through the  
shakes down on Pessimism Street

peace creep

I don't need you to keep me up all night (it's out of my  
head, yeah)

I want to wake up with my head on tight

Sometimes I feel so dirty and cheap but I'm scared of  
giving up and being a psychedelic

So (gimme gimme gimme) back my brain

(Gimme gimme gimme) back my brain

(Gimme gimme gimme) back my brain

(Gimme gimme gimme) back my brain

Don't want to die so close to home

I've been this way for far too long

No

Gimme gimme gimme back my brain
