Today's just an endless wait
Skull monkeys running through my head
Skylight, police car on fire
Someone get me to the end or time

Just exist, it's the easy way
Our elders only count on Poppy Day
I'm only human, just an upright dog
Nothing special and no loss

A handful of sour glory
A cup of poisoned joy
We're the devil's playthings
Satan's little helpers

A handful of sour glory
A cup of poisoned joy
God's mistakes
Hate, kill and destroy

All this panic just to keep us down
Get me up before the air runs out
I'm only human, just an upright dog
Nothing special and no loss

A handful of sour glory
A cup of poisoned joy
We're the devil's playthings
Satan's little helpers
Oh, God's mistakes

A handful of sour glory
A cup of poisoned joy
We're the devil's playthings, baby
Hate, kill and destroy

Handful of sour glory
A cup of poisoned joy
We're the devil's playthings

We're Satan's little helpers

A handful of sour glory

A cup of poisoned joy

We're the devil's playthings

Hate, kill and destroy
