For you, you, for you

I had a love of life  
I had a stable mind  
There's something wrong with me  
One fix, a quick release

For you, for you, for you  
Other people's misery

I had some confidence  
I had some kind of grace  
But it's caught up with me  
One fix, a quick release

For you, for you, for you  
Other people's misery

I had a love of life  
I had a stable mind  
I had a love of life  
I had a stable mind

I had a love of life  
I had a stable mind  
I had a love of life  
I had a stable mind

For you, for you, for you  
For you, for you, for you

Other people's misery  
Other people's misery
