Kissed a man's feet, then shot him dead  
Didn't like his face or what he said  
Saw a movie and I finally cracked

It sent him skyward  
Skyward

Sick of people asking how much I have  
(I don't need this world no more)  
The world has slashed it's wrists, it's lying dead  
(Take away this pain, no more)  
My down is bad but my high is worse

You send me skyward  
Skyward

Every single day I'm feeling just like before  
(Every day is just like before)  
Every single day I'm feeling just like before  
(You're shooting up my veins, just like before)  
Every single day I feel it coming down  
(I've got to step back and see where to stop)

You send me skyward  
Skyward

It took a hammer to shape his mind  
(Take away this pain, no more)  
Time after time he closed his eyes  
(Take away the pain, no more)  
He felt his body trailing all down the years

He fell skyward  
Skyward  
Skyward  
Skyward
