about these falls and the things that I have learned.
But you know me when it comes to my word.
I was told that i do dangerous things,
because i do what costs me many friends.
But you know me i don't need many friends.
I was told I should not think of what you have,
cause I might go out and get me one of them.
Well you know me when it comes to my things.
Yeah i know that I am crazy sin.
Anything I do will get me out of this,
but you know me I'm a crazy kid.
But don't throw me away,
I'm heading for better days
but I'm not sure how much more that I can take
I wanna be back in your grace
but im at an idiot's pace,
and I'm not sure but I might be made to break.
I was told I should not speak of what I heard,
about this falls and these things I have learned.
Well you know me when it comes to my word.
Well you know me when it comes to my word.
But don't throw this away,
I'm heading for better days
and I'm not sure how much more that I can take
I wanna get back in your grace
but imat an idiot's pace,
and I'm not sure but I might be made to break.
