Are you an alien, are you from this earth?
Would you care to tell me, details of birth?
Did you just emerge from thin air?
Can you even tell me, are you really there?

Jet age dreams from days gone by
The circle in the forest
Where they danced beneath the sky
Beneath the sky, beneath the sky

Do you know my thoughts?
Can you read my mind?
Would you dare to tell me
What it is you find?

Come on now tell me what you find?
What lays hidden in my mind?
I can see through you, I can hear you too
I can feel you touch my mind

Did they paint your face in ancient times?
Were they talking 'bout you in Celtic rhymes?
Can I just reach out pull back the shroud?
Would you let me hold you, would it be allowed?

Alien, alien
Are you the legend? Alien
Did they call you seer? Alien
Would you let me hold you? Alien
Would you disappear?

Alien
