

Jefferson Starship, The

"All Nite Long"

Visit "[All Nite Long](#)" on MotoLyrics.com

If only the music would keep on playin'
If only I could dance with you
If only I could keep on singin'
All nite long, all nite long

If only we could dance together
All nite long, all nite long
If only we could keep this feelin'
Make it last all nite long

Waitin' for the next wave
Wonder what it's gonna be
Waitin' for the next
All nite long, all nite long

Oh, the dawn comes up like thunder
Somebody give me a light I need a little help
Through the darkness, just a little light, enough to get
home
All nite long, all nite long

Sometimes the music's a doorway
Out of the darkness into the light
Climb the dream I can make you dream
All nite long, all nite long

See the ruins of a once mighty castle
A land where the sun casts no shadow
Signs and wonders, the sound of thunder
All nite long, all nite long

Step into the sky
You won't fall, I'll tell you why
You got to be a sky rider
All nite long, all nite long

Oh, the dawn comes up like thunder
Somebody give me a light, I need a little help
Through the darkness, just a little light, enough to get
me home
All nite long

I can read your mind and I know what you're thinkin'
I can see your mind just as clear as my own
The pictures I see, they all tell a story
'Bout where we been, where we're goin'

Tonight if only the music would keep on playin'
Tonight if only I could dance with you
Tonight if only we could keep on singin'
All nite long, all nite long

All nite long
All nite long
All nite long
