You see it every day in every way  
We all hear the same routines  
They all say that it's okay

Just let us take care of everything  
So we lay it on the line

Layin' it on the line  
(Layin' it on the line)  
Layin' it all  
(Right on the line)

Just layin' it on the line  
(Layin' it on the line)  
Layin' it all  
(We're livin' on the front line)

I can see it in the faces  
We gotta trouble in the streets tonight  
And power keeps us in our places

It doesn't matter if you're left or right  
You lay it on the line

Layin' it on the line  
(Layin' it on the line)  
Just layin' it all  
(Right on the line)

Layin' it on the line  
(Layin' it on the line)  
Layin' it all  
(Right on the line)

Take it to the wilderness  
Into the jungle sun  
Lookin' for the voice of reason  
Inside this Babylon

Got U.S. boys on foreign soil  
Spillin' their blood to keep the peace

Cities will vanish in turmoil

While the sheiks lay sleepin' on the beach  
We lay it on the line

Layin' it on the line  
(Layin' it on the line)  
Layin' it all  
(Right on the line)

Just layin' it on the line  
(Layin' it on the line)  
Layin' it all  
(Right on the line)

Layin' it on the line  
Just layin' it on  
Layin' it on the line  
Layin' it on

Layin' it on the line  
Just layin' it on  
Layin' it on the line  
Layin' it on
