

## Jefferson Starship, The "Skateboard"

Visit "[Skateboard](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Whoa whoa whoa mama  
Here I go whoa again  
Too fast on the downhill  
Faster than I can run

If miles turned to inches  
You know he might roll  
All the way around the world tonight  
Look at him go

No jumping off the ride  
At 30 miles an hour  
Iron brains and ball bearings  
Give him the power

(Whoa whoa)  
Take a look  
(Whoa whoa)  
Look at that man oh yeah  
(Whoa whoa)  
You can see it  
That man is free

Whoa whoa whoa mama  
Here I go whoa again  
Too fast on the downhill  
Faster than I can roll

You got to see him to beleive him  
(Can't you hear 'em callin')  
You got to hear him there's no fear in that man  
(Can't you hear 'em callin')

He's like a mean molten gold  
(Can't you hear 'em callin')  
Lord, he's got to have his story told  
(Can't you fear you're fallin')

Tounge tip slipin' in and out like a lizard  
(Can't you fear you're callin')  
Ah, good God that man's a damn wizard

(Can't you hear 'em callin')

Black hair snapn' like a bull whip in the air  
(Can't you feel 'em fallin')  
Red roll'n wheels runin' for the downhill dare me

He knows how to use his hands  
Perfectly balanced fore arms stand  
In a hundred degre desert sand  
You know I'd trade my boo for that man  
I trade my boo for that boo  
(C'mon man you're just a bad fool)

He's got the feeling about women's

Whoa whoa whoa mama  
Here I go whoa again  
Too fast on the downhill  
Faster than I can roll

Whoa whoa whoa mama  
Here I go whoa again  
Too fast on the downhill  
Faster than I can roll

Whoa whoa whoa mama  
Here I go whoa again  
Too fast on the downhill  
Faster than I can roll

Whoa whoa whoa mama  
Here I go whoa again  
Too fast on the downhill  
Faster than I can roll
