You keep calling it a crash and burn
Just waiting your turn
You might have time to speak
There barely was a lesson learned
'Cause it will return no favors back to me

I'm sure it tasted oh, so sweet
But it was never good enough for me
I bit the tongue behind my teeth
It was never good enough for me

You say you always keep your word
Show me what you're after
I thought you'd promise me the world
Tell me what you're after

Go on and take it way too far
'Cause here we are waiting once again
You say you always keep your word
Show me what you're after, just a little faster

Am I the only eyes that see so subtly
This cut and dry routine
Even when you're by my side
I still need time to feel the company

I'm sure it tasted oh, so sweet
But it was never good enough for me

I bit the tongue behind my teeth
It was never good enough for me

You say you always keep your word
Show me what you're after
I thought you'd promise me the world
Tell me what you're after

Go on and take it way too far
'Cause here we are waiting once again
You say you always keep your word
Show me what you're after, just a little faster
Just a little faster

Hold your breath now, the bad was wearing thin
From the pavements settles in when we learn too much
too soon

Hold your breath now, the bad was wearing thin
From the pavements settles in when we learn too much
too soon

You say you always keep your word
Show me what you're after
I thought you'd promise me the world
Tell me what you're after

Go on and take it way too far
'Cause here we are waiting once again
You say you always keep your word
Show me what you're after
It was never good enough for me
Show me what you're after, just a little faster
