(Verse 1)

I found a road
Where they color coded
My pledge of allegiance
Cleared out my soul
Gave me the old ways to deal with my demons
See past the smoke
They cover scars just to shadow the weakness
Left all alone
I see only nothing for miles upon miles

(Chorus)

I was chasing down the feeling
I get when I touch the sky
Dancing through the changes on until the morning light
Now it's you and I
Going nowhere, nowhere tonight

(Verse 2)

Well it's always cloudy
Cause I'm burning tires to break through the ceiling
Fill in the blank
Cause I'm saying nothing
Nothing you would want to miss
Hope to win over all the promises
Lock away our confidence

They say forever, forever
Whatever

(Chorus)

I was chasing down the feeling
I get when I touch the sky
Dancing through the changes on until the morning light
Now it's you and I
Going nowhere, nowhere tonight

(Bridge)

We're going separate ways on nowhere blvd
We're going separate ways on nowhere blvd
There's no more time to make on nowhere blvd
We waste away our days on nowhere blvd

(Chorus 2)

Chasing down the feeling

I get when I touch the sky

Dancing through the changes on until the morning light

Dried up in the desert, clip my wings to stop my flight

Now it's you and I going nowhere, nowhere tonight

(Bridge)

We're going separate ways on nowhere blvd

We're going separate ways on nowhere blvd

We waste away our days on nowhere blvd
