Do you miss it like you said you would?  
The mutual understanding  
Did I meet any of those demands you made so out of  
this  
world?  
Should I listen when the winds blows?  
Cause it's blowing in a new direction  
I can't help but feel like I'm affected  
Get me out of this small world

So let me go (let me go)  
Somewhere  
Where no one's ever been before  
Light a fire (burning fire)  
Let it get out of control  
Let me go  
Somewhere where everybody breaks the mold  
Paint a picture  
That's bigger than your small (your small)  
Your small sad world  
Your small sad world

Do you feel it like I thought you would?  
I found you right where I left this  
Never imagined your sideways preference would get  
so  
out of this world  
Do you see me through the looking glass?  
Smiling at my reflection  
Came up short with your thin affection  
Get me out of your small sad world

So let me go (let me go)

Somewhere  
Where no one's ever been before  
Light a fire (burning fire)  
Let it get out of control  
Let me go  
Somewhere where everybody breaks the mold  
Paint a picture  
That's bigger than your small (your small)

Your small sad world  
Your small sad world

Yeah

Minutes (minutes)  
Minutes (minutes)  
Have been changing my mind  
Seconds (seconds)  
Seconds (seconds)  
I could do without your precious time

Should I listen when the wind blows?  
'Cause It's blowing in a new direction  
Yeah, it's blowing in a new direction  
And I'm going...  
Yeah

So let me go (let me go)  
Somewhere  
Where no one's ever been before  
Light a fire (burning fire)  
Let it get out of control  
Out of control  
Out of control  
Somewhere  
Where no one's ever been before  
Light a fire  
In your small (your small)  
Small sad world

So long  
Goodbye
