1st Verse

There's a place in a piney hollow
That no one but me can find
Some choctaw built it in the hillside
Stone by stone in a simpler time

2nd Verse

It's a holy place, my daddy showed me
Back before this land of mine
On the blue side of the mountain
Where the sun don't ever shine

Chorus

So deep and dark like a hurtin down in my heart
Maybe something there will show me some kind of sign
On the blue side of the mountain
Where the sun don't ever shine.

3rd Verse

I'm going back to a world of shadow
Gotta find some peace for I lose my mind
On the blue side of the mountain
Where the sun don't ever shine

Chorus

So deep and dark like a hurtin down in my heart
Maybe something there will show me some kind of sign
On the blue side of the mountain
Where the sun don't ever shine,
Where the sun don't ever shine.
