Those midnight tears find me in the darkness  
They make a moanful sound  
No one sees and no one hears  
My midnight tears fallin' down

My friends wonder how I am doing  
They look for the proof in my eyes  
But they'll never know how my heart is breakin'  
Oh how you can make a man cry  
Those midnight tears find me in the darkness  
They make a moanful sound  
No one sees and no one hears  
My midnight tears fallin' down

I'm stronger with each brand new morning  
I wake up swearin' I don't miss you  
But till I learn to dry the pain of goodbye  
There's a nightly routine I go through

Those midnight tears, find me in the darkness  
They make a moanful sound  
No one sees and no one hears  
My midnight tears fallin' down

My midnight tears fallin' down
