Mr. Mr. of my youth
You fed me bread and taught me truth
And one adventure, you took me out
Showed what life is all about

I don't mind reliving
All the things about my youth that made me high
I don't mind reliving
I was so much happier back then

Cinderella of my youth
You made me smile and broke my tooth
And one adventure you held my hand
Made me feel I was a man

I don't mind reliving
All the things that were so good when we were young
I don't mind reliving
I was so much happier back then

I don't mind reliving
All the things that were so good when we were young
I don't mind reliving
I was so much happier back then
