A written guaranty
No, don't need it. well, might need it yeah
A home in germany
No, don't need it. Well, might need it yeah
A perfect forgery
No, don't need it. well, might need it yeah
A colored history
No, don't need it. well, might need it

Well I threw my flag in the wishing well
Paid my own way to show and tell
Climbed up high and I wish I'd fell
And I ended up in hell

She was alone
And I'd never thought about it if I had her on the phone
She was alone
I could cry out every day but it won't bring her home

She was alone
She was alone

Negative gravity
No, don't need it. well, might need it yeah
To surf in hawaii
No, don't need it. well, might need it yeah
A little sympathy
No, don't need it. well, might need it yeah
A lack of honesty
No, don't need it. well, might need it yeah

Well I threw my flag in the wishing well
Paid my own way to show and tell
Climbed up high and I wish I'd fell
And I ended up in hell

She was alone
And I never thought about it when I had her on the
phone
She was alone
I could cry out every day but it won't bring her home

She was alone
She was alone

she was alone
she was alone

She was alone
And I never knew about it when I had her on the phone
She was alone
I could cry out every day but it won't bring her home
She was alone
yeah, yeah, yeah, yeah, yeah.
She was alone
I could cry out, cry out yeah.
She was alone
She was alone

She was alone
She was alone
She was alone (was alone)
She was alone (was alone)
She was alone (No, don't need it. well might need it
yeah)
She was alone (No, don't need it. well might need it
yeah)
She was alone (No, don't need it. well might need it
yeah)
She was alone (No, don't need it. well might need it)
