Dark horizons come close to me  
And magic will be my key  
I will travel through the gate  
To be the finder of my fate

Nox, the night and key  
I will open your old mystery  
Key of night, open up  
Key of night, open up

Deep abysses I sink into  
And behind the light I go  
My long journey never end  
But I will receive what I send

Nox, the night and key  
I will open your old mystery  
Key of night, open up  
Key of night, open up  
Clavicula Nox
