Tied on a stone, he's born as hero  
Died on his feet, he's known forever  
Born, with a halo of frenzy, you black-browed  
Cú Chulainn, Cú Chulainn  
Mighty Cú Chulainn, even death you defy  
Cú Chulainn  
Still he stands where the raven lands  
With Emer as his bride.  
Small and youthful, (the) son of Lugh and Deichtine  
(He) Killed the guard-dog, killed the monster of Culann  
Yes, kill the monster of Culann in warp spasm  
Cú Chulainn, snared by love  
Mighty Cú Chulainn, only love makes you weak  
(You) left your wife (and) fell for fand  
Mighty Cú Chulainn, return to Emer.

Drink the cup (and) wipe away all the memories  
You will ride to the dawn  
Ride with Láieg, pass the sea  
Bring your loyal wife, bring your ever true bride  
Cú Chulainn, Cú Chulainn  
Mighty Cú Chulainn, even death you defy  
Cú Chulainn  
Still he stands where the raven lands  
With Emer as his bride.  
(The) Legend of Cú Chulainn flies across the land  
Like the spear of your fate  
Cú Chulainn  
Still he stands where the raven lands  
With Emer as his bride.  
(The) Legend of Cú Chulainn flies across the land  
Like the spear of your fate
