"Low"

I heard about what you do
To your family
To your friends
I heard about what need
The thing you feed
Your soul that bleeds

How low did you go
To get that high
How low did you go
To get that high
How low did you go
To get that high
How low did you go
To get that high

I bet you
I bet you did it, I bet you did it
I bet you did it, I bet you did it
All from the bottom of your deep black pit
Crawled out from the cracks
In the streets where you live
With a knife in your hand
Stabbed a friend in the back
For his last ten spot and a link off his neck
