Take it back, take it all back now
The things I gave
Like the taste of my kiss on your lips
I miss that now

I can't try any harder than I do
All the reasons I gave
Excuses I made for you
I'm broken in two

All the things left undiscovered
Leave me empty and left to wonder
I need you
All the things left undiscovered
Leave me waiting and left to wonder
I need you
Yeah, I need you
Don't walk away

Touch me now how I wanna feel something so real
Please remind me my love
And take me back

'Cause I'm so in love with what we were
I'm not breathing I'm suffocating without you
Do you feel it too?

All the things left undiscovered
Leave me waiting and left to wonder
I need you
All the things left undiscovered
Leave me empty and left to wonder
I need you
Yeah, I need you

When I'm in the dark and all alone
Dreaming that you'll walk right through my door
It's there I know my heart is whole

There's a millions reasons why I cry
Hold my covers tight and close my eyes

'Cause I don't wanna be alone

All the things left undiscovered
Leave me waiting and left to wonder
I need you
All the things left undiscovered
Leave me empty and left to wonder
I need you
I need you

'Cause I can't fake and I can't hate, but it's my heart
that's about to break
You're all I need I'm on my knees watch me bleed won't
you listen please,
I give in I breathe out I want you there's no doubt I
freak out
I'm left out without you I'm without I cross out I'm
kicked out
I cry out I reach out

Don't walk away [4 X's]
