Gunshots fill the air - salute our bliss
night bursts into flames - greets the final kiss
death comes without a sound - rings the wedding bell
target hits the ground - honeymoon in hell
shot - shot by both sides
in a war that won't cease
they gave their lives
unheard cry for peace
cities under siege - where the snipers strike
lovers out of reach - yearning in the night
take your lover's hand - meet your destiny
down in noone's land - for eternity

.....

CROSSFIRE! CROSSFIRE!

Music: Engler, Altus
