Krupps Die
"Jeckyll Or Hyde"

Fear myself - and nobody else

Born of innocence - you and me

the struggle to know - who to be

society's forcing you to be rotten

all morals have been forgotten

Find myself - in all this mess

free myself - from all this mess

You're fighting to stay on the good side

there's no one to show you what's good or right

when desperation strikes with all its might

you turn from good Jeckyll to evil Hyde

Society's forcing you to be bad

it is the truth it is so sad

it makes the worst come out

I see where it's leading to and I shout

The world says hate - yet I still care

Jeckyll or Hyde - which will I be

society throws the dice - will I be a prisoner or will I be free

Jeckyll or Hyde - which will be my fate

society throws the dice - will I love or will I hate

Jeckyll or hide - which will I choose

society throws the dice - will I win or will I lose.
