

Krupps Die "Metamorphosis"

Visit "[Metamorphosis](#)" on MotoLyrics.com

Weak the body and the sould

poor the body and the mind

lost the vision as a whole

shame and disgrace to the kind

drift around directionless

no clue what occured to me

got myself into a mess

swallowed down by misery

Body - Body - Body

versus

Mind - Mind - Mind

versus

Soul - Soul - Soul

This was then but this is now

find your own identity

this was then but this is now

truth lies in intensity

Time for change

Metamorphosis - Metamorphosis

History repeats itself

at the point of no return

decay's put back on the shelves

dying flame is back to burn

Energy is streaming back

removes weakness frame by frame

new beginning's taking shape

destiny recalls my name

This was then but this is now

regained power and control

this was then but this is now

on the edge but burning slow.

Music: Engler, Altus. Lyrics: Doerper
