From me to you  
from you to me  
speaking flows  
and thinking seems free  
from me to you  
from class to class  
speaking ways differ  
and chances pass  
different speech  
makes different minds  
separation into different kinds  
words do express  
words do possess  
the power of temptation  
supporting success  
there is new creation in mind  
there is new temptation in mind  
words can distort  
words can deceive  
brought to perfection  
they change belief

words can control

first thoughts then soul

help to prepare

for the final goal

a nation did rise

a nation did fall

a leader created

new ideals for all

there was a word

there was an idea

there was a belief

that thinking is free

Music: Engler, Altus

Lyrics: Engler, Schnekenburger
