=====

music: engler / words: esch

if they say it's necessary/

to be disciplined and trained/

to transform their new ideas/

into history and pain/

and pain...

simply say no

say no

(repeat)

if they say it's necessary/

to fight in a holy war/

if they say your life is needed/

to protect the great ideals

simply say no

say no

(repeat)

just let them feel

you disagree
