I could tell that the air is changing,  
Somethings wrong with how I'm breathing,  
I could tell that your eyes are wandering,  
I hope they end up on my way,  
(Ooh Whoa Whoa)  
I swear I'd never try,  
(Ooh Whoa Whoa)

She can do what she likes,  
(She's got a bet)  
You just do what you're doing,  
(Don't wait too long)  
You'll be the one tonight,  
Yeah,  
You're so pretty under the lights,

When you're ready let's go,  
Take me all the way home,  
Stay up all night,  
Find myself a new low,  
(Typical, Take Me Home)

When you're ready let's go,  
Take me all the way home,  
Stay up all night,  
Find myself a new low,  
(Typical, Take Me Home)

I could tell it's a game your playing,  
Something speaks with out you saying,  
I could tell your all too fitting,  
When you perfectly fell in my way,  
(Ooh Whoa Whoa)  
I see it in your eyes,  
(Ooh Whoa Whoa)

She can do what she likes,  
(She's got a bet)  
You just do what you're doing,  
(Don't wait too long)  
You'll be the one tonight,  
Yeah,

You're so pretty under the lights,

When you're ready let's go,  
Take me all the way home,  
Stay up all night,  
Find myself a new low,  
(Typical, Take Me Home)

When you're ready let's go,  
Take me all the way home,  
Stay up all night,  
Find myself a new low,  
(Typical, Take Me Home)

I am like a weapon,  
You're a target moving into my perception,  
I'm confessing this is too quick,  
Lets step back a bit,  
Blow a kiss baby & do the twist,

Find myself a new low,  
(Typical, Take Me Home)
