This is the place we go  
When the lights turn low  
And there's no misleading or true felling show  
Let me know  
And we'll take control  
Cuz baby if it gets to cold  
We'll set our hearts above

These are the sounds we know  
And the songs that go  
And go on repeating threw our stereo  
So let me know  
Don't turn it low  
Cuz baby if it gets to cold  
I won't leave you alone

We wake up  
The hours are ringing  
But we won't stop till everybody's singing  
And we wake up  
The hours are ringing

We got the style and no  
Did you get control  
So let's go it's likely  
Yeah better do nicely  
So stand up, lets take it to the top  
We never gonna spin the drop  
And if you need me  
You just pick up the phone  
I won't leave you alone  
I won't leave you alone

We wake up  
The hours are ringing  
But we won't stop till everybody's singing

And we wake up  
The hours are ringing

We wake up  
The hours are ringing

But we won't stop till everybody's singing  
And we wake up  
The hours are ringing

We all fall down  
But get up for the weekend  
You said it yourself  
Yeah we need this  
We all fall down  
But get up for the weekend  
Just like we planed oh just like we planed

We all fall down  
But get up for the weekend  
You said it yourself  
Yeah we need this  
We all fall down  
But get up for the weekend  
Just like we planed, just like we planed

We all fall down  
But get up for the weekend  
You said it yourself  
Yeah we need this  
We all fall down  
But get up for the weekend  
Just like we planed, just like we planed
