Highwater is everywhere, highwater is telling me to go  
There's poison in the course it runs, there's ashes from  
the factory on the hill

Watch it all fall down  
From the mountain to the ground  
Watch it all say no  
River Blood  
Oh, River Blood  
I've always found that river

Test my grip and then I'm sure you will believe that I  
cannot let go  
I live on fruit I have preserved in mason jars beneath  
the basement floor

Watch it all fall down  
From the mountain to the ground  
Watch it all say no  
River Blood  
Oh, River Blood  
I've always found that river

These walls are covered in black bullet holes and each  
one has a christian name  
One's my father, one's my son, I stick my fingers in to  
prove they're real

Watch it all fall down  
From the mountain to the ground  
Watch it all say no  
River Blood  
Oh, River Blood  
I've always found that river
