### "The night watch"

I'm the nightwatchman and nothing gets behind my  
back  
Work out at the goldmine in a tin can shack  
Don't come up behind cause I won't be mincing my  
words  
Don't play twenty questions with all of the scavenger  
birds

I'm the nightwatchman

It's up to me and the devil to do all the dirty work  
Got a thousand dirty secrets rolled up in the sleeve of  
my shirt  
Don't come up behind me, I will be playing for keeps  
Don't do this for good looks, I'll do this so someday I'll  
sleep

I'm the nightwatchman

I know about secrets, I know what secrets are worth  
Gold is a secret, they're draggin it out of the dirt

Yes, I'm the nightwatchman
