Tie my shoes and zip my jacket  
I lock the door and check my pockets  
I'm leaving the light on just for the sight  
Might make someone think that I'm still around

Sold my bed, no need to sleep these nights  
Walking rounds in search for stars these nights  
The sky is perfectly brown instead of black  
Let my shoes lead me forward, please bring me some  
luck

It's ok, hey come on, no time for education so let's go  
I can't stand all these rules,  
I'm gonna turn my back to everything I know  
It's ok, come on, I won't do the things they learned me

I pick up stones 'cause I might need them  
You're gonna throw'em, aren't you  
I tried with books but I'm not pleased yet  
Come on and read it for me, read it for me  
Sold my bed, no need to sleep these nights,  
I'm walking rounds in search for, doesn't matter

It's ok, hey come on, no time for education so let's go  
I can't stand all these rules,  
I'm gonna turn my back to everything I know  
It's ok, come on, I won't do the things they learned  
me...
