Marching the Hate Machines
Well let's start by
Making it clear
Who is the enemy, here

And we'll show them
That it's not them
Who is superior

So let's start by
Making it clear
Who is the enemy, here

And we'll show them
That it's not them
Who is superior

It's gonna be bad
It's gonna be wrong
It's gonna feel good

Marching the hate machines into the sun
Marching the hate machines into the sun

We'll let's start by
Making it clear
Who is the enemy, here

And we'll show them
That it's not them
Who is superior

Marching the hate machines into the sun
Marching the hate machines into the sun
Marching the hate machines into the sun
Marching the hate machines into the sun
