it's not your suicide no suicide no suicide
it's not the suicide it's only a test

you've got eyes
like the corpse of james dean
fuck with corbucci or fiorucci
you've got eyes
like a bottle of j & b
best wishes from your crypt best wishes - we'll keep
you

it's not your suicide no suicide no suicide
it's not the suicide it's only a test
remote control of your sequencer am / pm?
what's wrong what's right?
Remote control of your sickly heart
I'm your last cab get in - we'll keep you

it's not your suicide no suicide no suicide
it's not the suicide it's only a test
