Sometimes I wish that I could Sail Away  
Just pack by bags and leave behind the day  
and as the sunrise, i will cry and pray  
that I can make it alright  
There's only so much that a girl can take  
There's only so much till the sky will break  
and as the sunsets I can smile and say  
that I know I can make it

Chorus

Sail Away with you into the blue  
Sail away with you into an open sky  
Sail Away, i'll sail away, I'll sail away with you into the  
blue  
That's what I'm gonna do!

It's when I feel life fall apart again  
That's when I feel I need to start again  
I'm truly only ever happy with you  
I can face the storm with you by myside

Chorus

Bridge

and when the tide is high  
we'll make it through the night  
and someday soon we'll be free  
to live and be you and me

Chorus

Sometimes I wish that I could sail away  
just pack my bags and leave behind the day.....
