Ever since the world around you shattered
You've been looking everywhere for something more
Sometimes you feel like your life doesn't matter
But it does, I tell you it does, oh yeah

Come on let Me love you now
Come on let Me love you
And hold you through the storms
I will keep you safe and warm

Come on let Me love you now
Come on let Me love you
And kiss away your tears
I will always be here
Come on let Me love you

Yesterday you found your heart was broken
And tomorrow doesn't leave much room for hope
Today you'll find that My arms are wide open
And My heart, My heart is full of love, oh yeah

Come on let Me love you now
Come on let Me love you
And hold you through the storms
I will keep you safe and warm

Come on let Me love you now
Come on let Me love you
And kiss away your tears
I will always be here

Give up on all the other things
'Cause My love can bring you more
And if you take a chance on Me
I'll give you what you're looking for

Come on let Me love you now
Come on let Me love you
And hold you through the storms
I will keep you safe and warm

Come on let Me love you now

Come on let Me love you
And kiss away your tears
I will always be here

Come on let Me love you
Oh, come on let Me love you
Oh, come on let Me love you, yeah
Come on let Me love you
