

Third Day

"Long Time Comin'"

Visit "[Long Time Comin'](#)" on MotoLyrics.com

I've been taking it all for granted
And everything that I have been givin'
Now it is the day to start my mission
It's been a long time comin'

There are many searching for answers
Tell me who am I to keep it to myself?
And I've grown weary of my own fears
Yeah, it's been a long time a comin'

Well, I've been running just like an outlaw, yeah
And I am willing and I am able
To give you something you can believe on
It's been a long time comin'

True believers have been staring
Up into the sky waiting for Your return
Well, I know one day clouds will roll down
It's been a long time comin'

I've been running just like an outlaw, yeah
And I am willing and I am able, yeah
To give you something you can believe on
It's been a long time comin'
Oh, a long time comin'

I've been running just like an outlaw, yeah
And I am willing and I am able
To give you something you can believe on
It's been a long time comin', oh yeah
A long time comin', yeah, oh

I am able to give you something
It's been a long time, long time
Long time, long time comin', yeah
