### "That's How the Story Goes"

In the beginning You created  
The heavens and the earth and everything was good  
You created man according to Your perfect plan  
And everyday we walked with You and life  
Was Paradise

Then things became all complicated  
Pride entered the picture and did what it could  
Tried to make us think that we could make it on our own  
And now we're feeling so alone 'cause we  
Believed the lie

Since the fateful day  
We turned our backs on You  
You've been trying to win our hearts  
So we come back to You

That's how the story goes  
Sounds strange but it's true  
The world's falling but Your love  
Broke through  
That's how the story goes

You loved this world so much You saved it  
You came down to earth and in our place You stood  
Showed us how to live and then You paid the sacrifice  
Took our sins upon You and You died  
To give us life

Then You conquered death  
But that is not the end  
We know in our hearts that someday  
You'll come back again

In the final chapter  
We all have a part to play  
We must take the story out  
Into the world today

It goes on and on and on  
It goes on and on and on

It goes on and on and on and on  
That's how the story goes
